

Middletown
Prevention
Council

November 1st, 2024

Dear Middletown Residents and Community Partners,

The Middletown Prevention Council (MPC), formerly known as the Middletown Substance Abuse Prevention Council (MSAPC) would greatly appreciate your help in disseminating a survey to adults who live or work in Middletown. This survey will help us better understand the needs of our community and will provide information to guide our substance use prevention planning and programming efforts. Please click [here](#) or find the link below to complete the survey. I have attached a QR code as well for use in your communications. **All we ask is that the survey not be posted online, please.**

The survey should take less than five minutes and is available in English or Spanish by toggling the option on the first page. At the end, participants may enter a drawing to win one of three \$25 Amazon gift cards.

If you have any questions please contact Cassidee McDonnell, Prevention Professional
